

Monthly Indicators

July 2022

The U.S. housing market has continued to cool, as rising mortgage rates and record-high sales prices have stifled affordability, weakening demand and pricing out a multitude of buyers. Nationally, median household income has failed to keep pace with increasing mortgage payments, with the costs of buying a home about 80% more expensive now than they were just three summers ago, according to the National Association of REALTORS® (NAR). As more and more prospective buyers find their home purchase plans delayed, many are turning to the rental market, where competition has intensified due to increased demand.

New Listings decreased 1.8 percent for Single Family and 4.6 percent for Townhouse/Condo. Pending Sales decreased 14.3 percent for Single Family and 6.0 percent for Townhouse/Condo. Inventory increased 47.7 percent for Single Family and 29.4 percent for Townhouse/Condo.

Median Sales Price increased 18.8 percent to \$380,000 for Single Family and 16.3 percent to \$242,000 for Townhouse/Condo. Days on Market increased 25.0 percent for Single Family but remained flat for Townhouse/Condo. Months Supply of Inventory increased 63.6 percent for Single Family and 37.5 percent for Townhouse/Condo.

At a time of year when homebuying activity is typically very strong, soaring homeownership costs have caused home sales to decline nationwide for the fifth consecutive month, with existing-home sales falling 5.4% month-to-month and 14.2% year-over-year as of last measure, according to NAR. But there is a bright spot. Inventory of existing homes has continued to climb this summer, with 1.26 million homes available at the beginning of July, equivalent to a 3 months' supply. And despite the summer slowdown, homes are still selling quickly, with the typical home staying on market an average of 14 days.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.
